OF SCIENCE AND TECHNOLOGY

Enduring Tradition of Excellence

Established in 1956, Hanoi University of Science and Technology (HUST) is the first and continuously leading technical university in Vietnam. HUST has a longstanding commitment to contribute to society through the pursuit of education and research at the highest levels of excellence. We have trained thousands of elite engineers in many disciplines who continue to make an impactful difference to Vietnamese society and beyond.

Vision and Values

HUST is constantly in pursuit of becoming a pioneer research university in Vietnam and Asia, a hub for scientific and technological intellectuals, and an attractive environment for nurturing talent.

Our core values

Excellence & Effectiveness: We offer education programs that are committed to excellence and effectiveness through our education process

Dedication & Commitment: We promote dedication and honor commitment as our long-standing values

Integrity & Respect: We value integrity and respect dignity and diversity in all aspects of university life

Individual Talent & Collective Brainpower: We respect individual creativity and intellectual differences as key elements for success and innovation

Inheritance & Creativity: We inherit intellect and values from prior generations in promoting innovation and sustainable development

Our Facts

STUDENTS

Top-performing students on admission

HUST students make up 1/3 of the 1% most-talented students nationwide.

Affordable Excellence in Education

OUR COMMITMENT TO THE BEST EDUCATION INCLUDES:

Providing affordable, high-quality programs that attract top-performing students

Adopting rigorous, diverse, and innovative approaches in teaching

Offering multidisciplinary and internationalized programs in English, Japanese, and French

Promoting research and hands-on learning opportunities from the first academic year

Encouraging the development of skills, leadership, and confidence for student success

Personalizing student academic needs and aspirations

Creating multiple job and career development opportunities for students, with more than 90% of graduates achieving employment within 6 months of graduation

148 Academic programs:

- 43 Doctoral Programs
- 40 Master's Programs
- 65 Bachelor's/Engineering Programs

23 ELITECH programs:

- 3 Excellent Engineers Training Programs
- 7 Talented Engineering Programs
- 13 Bachelor's Advanced Programs

14 Bachelor's joint academic programs with international partners

Research Frontiers

As a research-oriented university, we utilize our richness of research expertise and promotion of strong collaboration for:

Tackling cutting-edge research projects in engineering and technology

Promoting challenge-led interdisciplinary research with national and international partners

Addressing challenges faced by Vietnam, the Asian region, and the world to foster positive and sustainable change

We prioritize 4 Global Challenges Research Areas:

1

Advanced Materials

3

Sustainable Energy and the Environment

2

Data Technology and Intelligence Systems

4

Health Sciences and Technology

FACTS & FIGURES

120+

impactful research groups

430+

research projects

US \$5 million

for research fund

1500+ publications
(including 600 ISI,
Scopus publications)

MEMORANDUM OF UNDERSTANDING SIGNING CEREMONY

일시: 2020년 9월 9일(수) 장소: 삼성디스플레이 기흥캠퍼스

Why partner with HUST?

HUST is the first and leading technical university in Vietnam with nearly **35,000** students, **148** academic programs and over **200,000** alumni.

HUST has an attractive campus in the center of Hanoi, Vietnam.

HUST is a competitive university with **80%** of enrolled students in the top **13%** nationwide.

HUST has a high employment rate with more than **90%** of graduates employed within **6 months** after graduation.

HUST was ranked in the **top 301- 400** universities worldwide for engineering and technology subjects (*THE* - 2020).

HUST has more than **250** academic and industrial partners all over the world and desires to expand our partnerships in pursuing the goal as the regional leading research university.
