1. INTRODUCTION

For more than 35 years, the European Union has funded the Erasmus programme, enabling over three million European students to spend part of their studies in another institution elsewhere in Europe. Recognizing the importance of the extra-European international dimension, especially in higher education, Erasmus+ now also offers opportunities for individuals to study, work or teach in other parts of the world. It also makes the same opportunities available for students from these areas to come to study in Charter-holding higher education institutions in Europe.

International Credit Mobility is an activity under Key Action 1. An institution in a Partner Country can send its students and/or staff to a partner institution in a Programme Country and *vice versa*. In order for a mobility activity to take place, an inter-institutional agreement must be signed between the participating institutions before the mobility. By signing it, the institutions commit themselves to respecting the principles and quality requirements of the Erasmus Charter for Higher Education (ECHE) relating to the organization and management of mobility, and agree on a series of measures to ensure high quality mobility. Also, it ensures that the sending institution will recognize the mobility period for its students (credits gained) and staffs when they come back.

As partner of UPVD, you already have to sign the Erasmus + inter-institutional agreement and have to agree the conditions of participation before the 1st mobilities of the program.

2. GENERAL ADMISSION REQUIREMENTS

In order to apply for a grant within the framework of EMIC programme, applicants must comply with the **following general requirements**:

- They must be registered (students) or working (staff) at the partner institution (no nationality criterion).
- They must have sufficient knowledge of the **language** of instruction of the host university they apply to.
- **Grants cannot be awarded to the students who had a European scholarship for the same mobility level** (eg: Erasmus Mundus, Erasmus+).

3. LEVEL AND TYPE OF MOBILITY

Erasmus+ International Credit Mobility includes 4 **level of mobility**:

- Undergraduate (U)
- Master (M)
- Doctorate (D)
- Academic/Administrative staff

Types of Mobility:

- Students (U, M, D) can only do a mobility for studies or for studies + internship (combined)

- Staff : 2 different types of mobility are possible:
 - Teaching Mobility (Academic staff): to teach at least 08 hours per week at the host institution. There is also the possibility for academic staff, to do a combined mobility: to teach at least 04 hours per week + exchange of good practices at the host institution (see hereafter main thematic for academic staff). This has to be specified on the working plan.
 - Training Mobility : to improve their professional skills and competencies, to share their experience and good practices (Academic or Administrative staff).

The main thematic are:

Academic staff:

- Pedagogical engineering for curricula, development of new teaching/learning methods or materials, innovative pedagogy
- Development of new courses or joint degrees.
- Development of research projects, entrepreneurship, university-enterprise relationship and innovation transfer.

Administrative staff:

- Governance & Management
- Quality assurance approach
- Exchange of good practices: International Affairs, general administration, finances, HR, students 'registration & recruitment office..

For the mobilities of administrative staff, the list of the available offices at the UPVD is indicated on the online application form.

Taking into account the above-mentioned levels, applicants must meet the following **specific requirements**:

- **Undergraduate applicants:** they must have successfully completed at least one year of studies.
- **Master applicants:** they must have obtained a Bachelor diploma (before the beginning of the mobility).
- **PhD applicants:** they must have obtained a Master diploma (before the beginning of the mobility). They should contact their respective potential supervisors at the hosting institution before applying in order to get a preadmission letter.
- **Academic/Administrative Staff:** both academic and administrative staff should contact their respective counterpart at the host institution in order to accordingly draw up their teaching/working plan.

4. MOBILITY FLOWS PLANNED :

Algeria, Morocco and Tunisia	275 €	320 €
Kazakhstan	820 €	Not applicable
Mexico and Vietnam	1500 €	Not applicable

For eco-responsible transportation (boat, bus, train), depending the country, participants can benefit of a green travel grant.

Fewer opportunities top-up: Additional support for students who have fewer opportunities

A student with fewer opportunities is a potential participant whose personal, physical, mental or health-related conditions is such that his/her participation in the project / mobility action would not be possible without extra financial or other support.

In case of available funding, **students with fewer opportunities** may apply a top-up amount to the individual support of their Erasmus+ grant with an amount of **250 EUR per month**.

Fewer opportunities status: social, economic or geographical obstacles, disability, educational difficulties, cultural differences, health problems, migrant background obstacle.

The proof of status has to be added to the application form: examples:

- Students of lower socioeconomic status: student is a recipient of his/her state social support (financial). The certificate has to be provided.
- Students who have a refugee status, asylum seekers or migrants: decision granting asylum or subsidiary protection, like residence permit. It is also important that with the above-mentioned status prove their identity, and this is possible with following documents: passport for an asylum seeker, special passport for aliens, other identification document(s).
- Students with ethnic minority backgrounds: a certificate or other national document.
- Students with disability or health problems: family physician's or specialist doctor health certificate (not older than 6 months) and the decision of the competent state institution/organization with the indicated degree (percentage) and type of person's impairment.

Inclusion support: For students with disability or health problems that require extra financial support to allow their participation in the mobility and for accompanying persons. Real costs can be financed. The request is done through a specific application form after selection to the EMIC program. It must be duly justified (estimation costs, quotes) by the student and approved by the French Erasmus+ National Agency minimum 2 months before the beginning of the mobility.

4.3. Mobility duration:

The mobility periods indicated below are the maximum periods funded.

The duration of each mobility will be adjusted according to the exact end date of each training course.

Third Countries to UPVD	Duration
Undergraduate	6 months
Master	6 months
Doctorate	-
Staff for teaching	1 week
Staff for training*	1 week
UPVD to Third Countries	Duration

6. SELECTION PROCESS

Phase 1: Validation of the applications

Completeness and eligibility check will be carried out by the coordinator of the Program, the University of Perpignan (UPVD):

1/Completeness:

At the closing date, only complete applications will be declared eligible.

UPVD will check if the downloaded documents correspond to the documents requested in the list of required documents. If this is not the case, the application will be automatically excluded.

2/ Eligibility criteria:

Also UPVD will check if each application is eligible depending the criteria of each mobility level:

- Criterion of non-accumulation and no more than 12 months of EU funding for the same level of mobility (not applicable for staff)
- Eligibility criteria by level
- Registration (students) or employment (staff) proof at the home institution

If one of these criteria is not met, the application will be automatically excluded. Additionally, applicants will be excluded if they apply for an academic level that they have already completed.

A staff can't apply for a different mobility level (e.g.: PhD).

These applicants will receive an email informing them that their application is rejected as incomplete or ineligible.

If at the time of application, the applicant cannot provide his/her last university results or diploma, so the final selection will be conditioned by the validation of the academic year. Since the scholarship is based on academic excellence, students who have to take re-sit examination during the academic year of application won't be considered.

After the Phase1, only the eligible and complete applications will pass the Phase2 & 3 for pre-selection. The list of incoming and outgoing applicants will be available for each home / host institution, on an online platform (<https://erasmus.univ-perp.fr>), with the form and the attached

files of each application. The contact person for each institution will receive the access code to this platform, in order to enter the evaluation (notation) carried out by his/her institution. Also, the list of outgoing applications and the list of incoming applications, ranked by level and grade, signed by the members of each local pre-selection committee, must be sent to the UPVD by email.

Phase 2: Evaluation by home institutions

1/Authenticity:

The home institutions have the responsibility to verify the authenticity of the documents provided, identities, registration (students) or employment (staff), diplomas and grades. If this is not the case, the application will be automatically excluded and not evaluated. Home institutions must therefore specify the reasons for this exclusion, in a “comments” space, for this purpose.

2/Notation and pre-ranking by home institutions:

Each home institution will set up a **pre-selection committee** (including at least a Vice-Rector or Director of International Affairs) in charge of examining and grading all the applicants from its institution. It is not possible to give the same grade to applications at the same level. A ranking by level of mobility is required (L, M, D, teaching staff, and training staff). As a result, a list of pre-selected applicants will be drawn up according to the **pre-selection criteria** here below.

CONCEPT	MARK
Academic/scientific/professional excellence of the applicant	10
Feasibility and relevance of the application	5
Priority thematic/Field/project (strategy of the Institution)	5
TOTAL	20

Phase 3: Evaluation by host institutions

Each partner institution will also evaluate the applications, as a **host institution** (if applicable). They have to set up the **pre-selection committee** in charge of examining and grading all the applicants. As a result, a list of pre-selected ranked applications will be drawn up according to the **pre-selection criteria** shown here below.

CONCEPT	MARK
Academic/scientific/professional excellence of the applicant	10
Feasibility and relevance of the application	5
Priority thematic/Field/project (strategy of the Institution)	2
Language skills	2

Motivation	1
TOTAL	20

In order to avoid having several applicants with the same final grade, it is important **to rank the applications by type and level of mobility** (L, M, D, staff).

The list of outgoing applications and the list of incoming applications, ranked by level and by grade, signed by the members of the local pre-selection committee, must be sent to the UPVD by email.

Phase 4: Final selection

The Final selection will be done by the University of Perpignan, according to the selection criteria of the program. It will draw up the final main list of beneficiaries as well as the reserve list, regarding the evaluation done by each home and host institutions. Final notation is based on a maximum total of 40 points.

The role of University of Perpignan is to:

- Check compliance notation relative to the criteria and grids
- Ensure a good ventilation of the mobilities between the partners, and between different disciplinary areas covered
- Respect of the distribution of mobility by level
- Ensure gender balance (if possible)
- Take into consideration the applicants with fewer opportunities that are in a vulnerability situation (with a social, economic, geographical obstacles, cultural differences, or health disability)
- Establish the Main List and a Reserve List, by level and by country

The Reserve List must have at least the same number of applicants as the Main List and preferably more applicants to still have a Reserve List in case of further withdrawals of the Main List. Applicants in Main List and Reserve List are classified by level (U, M, D, Staff) and direction (outgoing/incoming), so that it descends automatically in the Reserve List in case of withdrawals. Applicants in Reserve List must be all of a high standard.

Phase 5: Notification of selection

No information should be given to applicants by partner institutions until the final selection of the main and reserve lists. The partner institutions will be informed about the final selection by the University of Perpignan.

At the end of the selection phase and after validation of the lists, only the University of Perpignan is empowered to individually communicate the results to the applicants.

The University of Perpignan will inform all selected applicants of the award decision through an e-mail notification and they will have **one week to accept or reject the grant**. Applicants rejected and those in the reserve list will also be duly informed through an e-mail notification.

For the validation of their mobility grant, they should send to the UPVD in July, the documents

justifying the validation of their current academic year (N), as well as a certificate of their registration in the superior academic year (N+1) in their home university.

Phase 6: Invitation and visa procedures

Selected applicants will receive an **invitation letter*** from the host institutions in order to start their visa arrangements. It is the responsibility of the selected applicants to provide all necessary documents requested by the Embassies/Consulates of the host universities. The contact person from host institutions may provide them with assistance and information about the visa procedure.

**Case of exclusion: a candidate who would have made a false declaration in his application or submitted false document is automatically excluded from the benefit of the selection, even if he/she has already received the notification of his/her selection or the invitation letter.*

7. SELECTION CRITERIA

7.1. Selection criteria by level:

Partner institutions of the program agree on a selection procedure based on these general criteria:

- ✓ The academic/scientific/professional excellence
- ✓ The quality of the candidate's mobility project (relevance/feasibility)
- ✓ Language skills
- ✓ The candidate's motivation
- ✓ The commitment of the candidate to return to his/her home institution at the end of his/her mobility period
- ✓ Gender balance
- ✓ The candidate's level of vulnerability (fewer opportunities status)
- ✓ A geographical distribution of mobilities

Applicants applying for **Bachelor or Master mobility**:

- ✓ Criterion 1: Academic excellence of the candidate certified by:
The last academic results at the time of application: the ranking position, the notes by subject/by semester/by year, the final grade average in comparison to the promotion, graduation date and the results of the last diploma (with indication of the possible mention).
A re-take disqualifies a candidate (unless justified).
A **minimum average** of "C" grade, meaning:
 - 12/20 for North African countries & France
 - 2.0/4 (65/100) for Kazakhstan
 - 72/100 for Mexico
 - 2.5/4 (HUST) or 6/10 (Van Lang) for Vietnam
 for all academic results of the candidate **is required**.
- ✓ Criterion 2: Feasibility and relevance of the study project:
 - Good match between the courses currently followed in the home institution and the

- study program in the host institution.
- The candidate has the necessary academic pre-requisites.
- Preexisting collaborations between the two courses of study in the home and host institutions (e.g.: co-diploma).
- ✓ Criterion 3: Language Skills: The candidate has the language skills of the host university (depending the field of study).
- ✓ Criterion 4: The motivation of the candidate and his professional project

Other factors taken into account for the selection of applicants:

- Priority field: the mobility is included in the priority thematic areas of the home & host institution
- Geographical balance: Depending on the criteria above and equivalent rating, it will also be considered the distribution of mobility between the partner institutions of the same country.
- During the selection process, the selection committee can assign an additional point to students with fewer opportunities, from disadvantaged social environment or suffering from a disability (applicants must provide proof).
- In case of equal academic records, and similar evaluation, priority is given to female applicants (to promote equal opportunities /gender balance).

Applicants applying for **Academic/Administrative Staff mobility**:

- Excellence of the candidate and his/her project: Professional Skills and educational project and/or cooperation
- Adequacy of the project with the international cooperation strategy of the institution
- Language skills in the teaching or working language at the host institution
- Feasibility and relevance of the mobility project regarding the work plan proposed and the competences of the candidate regarding the office/domain chosen at the host institution
- In case of equal evaluation, priority is given to female applicants (to promote equal opportunities /gender balance)
- The candidate's level of vulnerability (fewer opportunities status)
- Depending on the criteria above and equivalent rating, it will also be considered the distribution of mobility between the partner institutions of the same country.

7.2. Additional criteria:

Each **host university** reserves the right to determine the **ineligibility** of applicants on the basis of the following reasons:

- Low quality of application. [Reminder: for students, the minimum average on the transcripts of records is a "C" Grade: under 12/20 (North African countries) or 2.0/4 (Kazakhstan), 72/100 for Mexico, 2.5/4 (HUST) or 6/10 (Van Lang) for Vietnam.]
- Inadequacy of application (eg: the academic field for teaching or for training doesn't exist in the host university)
- Lack of correspondance between home and host studies/research/working program
- Insufficient Language skills (in the teaching/working language)

If that is the case, the application will not be scored, and be automatically rejected (see excel file).

7.3. Pre-selection & selection evaluation:

You will find hereafter, some indications to harmonize the evaluation of the applications which has to be done by the partner institutions of the program.

The evaluation can be done by full point or by increments of a tenth point min. (e.g: 4.80/5 or 1.70/2 is allowed). The objective is to have a final ranking, by country and mobility level.

Excellence:

- *Students:*
Applicants scored 10/10 must be major of their promotion.
Applicants scored between 9/10 and 8/10 should be at least in the top 5 of their promotion.
The applicants listed in the second half of their promotion, or those who have failed one or more modules, cannot have a score above 5/10.
For applicants who have not provided any rank or classification, please rely on their average obtained, visible on transcripts of records.
- *Doctorates:* Applicants have to be scored depending the academic results (see above), the number of publications and especially in international ranking journals, the letter of support from his/her supervisor, Curriculum Vitae..
- *Staff:* Applicants have to be scored regarding the list of publications and works if they are researchers or lecturers, the description of their missions and responsibilities at their home institution if they are administrative staff, and their Curriculum Vitae.

Relevance/feasibility: A notation of 5/5 to 3/5 indicates that the project is relevant & feasible, between 2/5 to 1/5 means that the project is insufficient.

- *Students:* The relevance of the study project is assessed regarding correlation between previous studies and the study project mentioned for mobility (previous studies and diploma/current curriculum).
- *Doctorates:* The relevance of mobility research project is assessed in relation to the consistency or complementarity between the thesis and the research project during mobility.
- *Staff:* The proposed project must have an impact on the home institution and host institution and on the participant (professional competences/knowledge). The relevance of the mobility project is evaluated in relation to the proposed project and also the capabilities of the host institution to organize its implementation (research, education, professional project).

Priority/strategy of institution: A notation of 5/5 (or 2/2) to 3/5 indicates that the mobility project

or thematic is part of the priorities of the institution (regarding international cooperation, needs or strategy of the institution).

Language skills: Applicants scored 2/2 should have duly justified at least a B2 level (with a certification (eg: DELF, TOEIC). Applicants scored 1.5/2 to 1/2 have a B1 level certification minimum (or B2 level without official certification)

For students (U & M): Applicants scored 0/2 in the main language of instruction, means that the application is rejected (It will not be assessed – see Part 7.2).
