Chương trình:

8.30am - 9.15am -> Avnet Company Overview and IoT Offering

9.15am - 10.45am -> Security for IoT System by Infineon

10.45am – 11.00am -> Break

11.00am – 12.30am -> Power Management for IoT System by Infineon

12.30am - 1.30pm -> Lunch

1.30pm - 3.00pm -> Microcontroller for motor control by Infineon

3.00pm – 3.15pm -> Break

3.15pm – 4.45pm -> High Power in motor control and Inverter System by Infineon

4.45pm – 5.00pm -> Q&A

The screenshot shows a web browser displaying the website of Hanoi University of Science and Technology (HUST). The page is titled "Trang chủ > Tin tức" (Home > News). The main content area features a news article titled "Chuyên gia công nghệ nói chuyện với sinh viên Bách khoa về bảo mật IoT" (Experts talk to Bachelors students about IoT security). The article text discusses the development of the Internet of Things (IoT) and its applications in industry, mentioning a seminar organized by Infineon and AVNET for 60 students from the Faculty of Electrical Engineering at HUST. The article also includes a photo of a presentation slide. To the right of the article, there is a "TIN NỔI BẬT" (Featured News) section with a list of news items, including "Thông tin tuyển sinh năm 2019" (2019 Admission Information) and "Ba nhóm ngành của ĐHBK Hà Nội lọt top 550 ngành tốt nhất..." (Three faculties of HUST ranked in the top 550 best fields...). The website header includes the HUST logo, navigation menu, search bar, and language options.
