

Tentative Programme The Traveling Exhibition “Energy in Transition – Powering Tomorrow”

April 22nd - 27th, 2021

Location: Ta Quang Buu Library at HUST Campus
Opening hours: 7am-9pm
Target audience: general public; experts, university students, high school students, civil society; politics, business, academia, media

Purposes:

- Present opportunities and challenges of the global energy transition from different perspectives
- Foster international dialogue on this topic, learning from different countries’ and stakeholders’ experiences and improving public acceptance for the energy transition globally
- Inspire potential and current students, lecturers, and concerned stakeholders about the love for technology innovation in energy transition
- Offer opportunities for academics, industry, policy makers and other stakeholders for networking and exchanging knowledge in energy transition, especially with the following themes:
 - **Key theme 1: Renewable energies – the switch to renewable sources**
 - **Key theme 2: Better mobility**
 - **Key theme 3: A just transition – for all people**
- Function as an initial important activity for the 65th foundation anniversary of HUST (organized in October).

Contact people:

- HUST: Ms. Phung Lan Huong: 0905 608 271; Ms. Tran Vu Huong Tra: 0949 813 886

Date and time	Content
23.04.2021	Exhibition Opening Ceremony
08:30 – 10:30	<i>See separate Tentative Agenda Opening Ceremony for the Traveling Exhibition “Energy in Transition – Powering Tomorrow”</i>
Panel discussions	
23.04.2021	<u>Key Theme 1</u>: Renewable energies
